Dear Hiring Manager:

I am pleased to offer this cover letter to serve as an introduction, and to provide a brief insight to my goals, my work ethic, and my character.

As a senior web designer, webmaster, web developer, and a seasoned professional, I bring a diverse set of skills and over 20+ years of experience to the task of web design, development, and support. I routinely take ownership of projects and enjoy building collaborative relationships with team members and stakeholders.

My experience spans web design projects from domain creation to hosting, design staging, and publication. I am seeking a full-time opportunity where I can become a part of a team after a challenging distant relocation from Alaska to Florida I'm happy to work in an office however, my home office is equipped with an Alien 51 computer with 4 each 24" monitors for easy work support.

I believe my knowledge and experience have positioned me for successfully offering my services to organizations in search of team players willing to accept responsibilities that support strategic initiatives either in a long-term setting or, as a contract consultant. I am always willing and interested in moving forward and this has always been driven by an understanding that in the technology industry continued education is a never-ending means of staying in tune with the future.

If you are seeking a person who stays abreast of the field, who understands technology, who earns 100% confidence through effective communications and reporting, and who is as career-committed as necessary to achieve total success, then please consider my offer.

I would be happy to have a preliminary discussion with you, or members of your staff, to see if we might establish an opportunity goal that will lead to a successful relationship.

I will be pleased to hear from you to answer any initial questions you may have. I thank you for your consideration, and for your interest in my resume. You may review my work examples and portfolio at the following Online Resume site at URL:<http://dsteinberger.com> I also invite you to visit my custom web design site where you will be able to view more of my site designs at: <http://dsteinberger.com/portfolio-gallery/> along with continued education certificates I've completed to stay up to date and fresh with coming trends and previous programming and design refreshers. I normally post a number of the most recent web designs within the portfolio page.

I certainly look forward to exploring opportunities you may have further. Best

Regards,
